PROTECT PATIENTS WHEN THEY ARE MOST AT-RISK, UP TO 30 DAYS POST-SURGERY

USE CIRCUL8 PRO TO AID IN THE PREVENTION OF BLOOD CLOTS

Circul8 Pro is an easy to use portable system, prescribed by a physician, for use in the home or clinical setting to help prevent the onset of DVT in patients by stimulating blood flow in the extremities.

This device can be used to

- Aid in the prevention of DVT
- Enhance blood circulation
- Diminish post-operative pain and swelling
- Reducing wound healing time

Portable

Easy to Use

Lightweight

Rechargeable

Battery Operated

1. Place on Calf

Align air bladder with the back of your calf, and secure with the straps.

2. Power On

Press and hold power button on both units for 3 seconds and release. Device will start

3. Pressure & Charging

Now the device will gently fill with air and create pressure on your calf. Recharge device when needed.
